Vehicle Description

2007 LEXUS RX400h 3.3 SR CVT 5DR auto

With its sharp styling, upmarket image and lack of a diesel engine, it's clear the Lexus RX was always designed as a road going four-wheel drive car rather than an proper offroader. As you'd expect from Lexus (which is owned by Toyota) build quality and reliability are second to none while superb ride comfort makes it great for covering long distances.

In 2005 the RX300 was joined by the RX400h model which is actually a hybrid - and uses an electric motor alongside its petrol engine. This is the alternative to a conventional diesel and returns a useful 35mpg.

Great spec inc.

- *3.3 v6 petrol with 270 bhp
- *200kw of electric power
