The Santa Fe is one of the best cars in the Hyundai line-up and a great 4x4. Good quality interior, comfortable ride and a cracking diesel engine. It stacks up well alongside the competition too and there are few cars that can match it on space, equipment and value for money. Alternatives like the Toyota RAV4 and, Honda CR-V are smaller , while similar sized models like the Volkswagen Touareg are far more expensive. It was significantly revised in late 2009 with a more powerful yet economical engine, an upgraded cabin and exterior styling tweaks. However, it remains as good value as ever.
